

Prevent hearing loss and reduce its impact.

Protect your ears from
loud sounds

Seek treatment if you
have ear pain or other
signs of infection

Ask your doctor if the
medicines you are taking
might affect your hearing

Check your hearing
regularly

Use hearing devices as
indicated

Demand captioning and
sign language services

Hear
the
future

... and take action now.

Allocate resources for hearing care

Train hearing care professionals

Ensure access to hearing technologies and communication services

Regulate sound exposure

Hear
the
future
